

### Sprint 3 Plan

Product: RIFFAGE

Team: RIFFAGE

Sprint Completion Date: 11/19/2017

Revision 1 - 10/23/2017

#### High-Level Goals

Refine the tags for the riffs so they can be searched on an abstract level.

Allow users to interact with each other through messages.

Implement document uploading so other users can learn how to play the pieces.

Allow allow public access to public riffs. (This will be refined later)

#### User Stories

<u>User Story</u>	<u>Task</u>	<u>Time Estimate</u> (Hours)
As a musician, I want a way to attach documents for the notation so that I know how to play them.	Research an appropriate way to upload documents.	1
	Implement document uploading.	3
	Add an interface for viewing uploaded files from inside the riff detail page.	4
As a musician, I want a way to tag my riffs with characteristics so that I can search for them on an abstract level.	Research what database/data-type approach we want to take with the tags.	1
	Implementing said data type.	3
	Validation -- Making sure there are no duplicates being created in db, ensure no existing entries with tag → deletion, etc.	3

As a musician, I want an inbox/messaging system.	Set up a model to handle the messages by each user.	5
	Create a “send message” page where a user can craft and send messages to a specific user	8
As a musician, I want to be able to interact with other users and see what they have created.	Implement Private/Public setting for riffs.	2
	Change current Collection view from All-riffs-in-database to just Riffs-within-user-purview.	3
	Change all riffs to “Private” when corresponding Account Settings option is checked and saved.	2
	Include username column for collection when user does not have a private account.	2
	Remove Edit/Delete buttons for public riffs that are not yours.	2

#### Roles

Team Member	Role 1	Role 2	Role 3
Preston Fraser	Product Owner	UX	Developer
Morgan Grant	Developer	Backend	UX
Ryan Reeves	Developer	UI	UX
Samir Shingane	Scrumlord	UX	QA

#### Scrum Times

Mon	Tues	Wed	Thurs	Fri	Sat	Sun
<b>6:30pm</b>	<b>6:30pm</b>		<b>6:30pm</b>			

### Task Assignments

<u>Team Member</u>	<u>User Story</u>	<u>Initial Task</u>
Preston Fraser	As a musician, I want to be able to interact with other users and see what they have created.	Implement Private/Public setting for riffs.
Morgan Grant	As a musician, I want a way to attach documents for the notation so that I know how to play them.	Research document uploading in Django
Ryan Reeves	As a musician, I want an inbox/messaging system.	Set up messaging model
Samir Shingane	As a musician, I want a way to tag my riffs with characteristics so that I can search for them on an abstract level.	Research what database approach we want to take with the tags.

### Burn-Up Chart
